Section 1 – Multiple Choice

Select the alternative A, B, C or D that best answers the question. Fill in the response oval completely.

Sample 2 + 4 = (A) 2 (B) 6 (C) 8 (D) 9A \bigcirc B \bigcirc C \bigcirc D \bigcirc

If you think you have made a mistake, put a cross through the incorrect answer and fill in the new answer.

 $A \bullet B \not \bullet C \circ D \circ$

If you change your mind and have crossed out what you consider to be the correct answer, then indicate this by writing the word *correct* and drawing an arrow as follows.
